IBAN (International Bank Account Number) - for Swiss payment transactions too.  
In future, 21-digit IBAN account numbers will completely replace traditional account numbers. They are already successfully used as standard in cross-border payments. The advantages - greater security thanks to check digits, faster payment processing and, ultimately, lower processing costs for clients - should now be used as soon as possible in Switzerland as well. You can find your personal IBAN on your UBS Maestro Card, on your UBS account statements (top-right), or in UBS e-banking. To ensure that you are fully prepared for the future, we recommend that you give this number to transaction partners and start using it right away for all domestic payments. From 2010, not using your IBAN may result in higher transaction costs.

### New withdrawal limits for UBS customer card and UBS Maestro Card

UBS has simplified the withdrawal limits for UBS customer cards and UBS Maestro Cards. From February 1, 2010, both your monthly and daily limit will be CHF 5,000. This applies to withdrawals made with your UBS customer card at UBS Bancomats and counters, and also when you use your UBS Maestro Card at any ATM or to purchase goods and services worldwide. Please note that the amount per withdrawal may be limited at ATMs abroad. Further information: [www.ubs.com/maestrocard](http://www.ubs.com/maestrocard) or from your client advisor.
